

RULES OF PARTICIPATION

11th Forum of Science and Civilization (FoCiCi)

Virtual edition

6th November 2020

Cerrito, Entre Ríos, Argentina

Article 1: Concerning the participation in the modalities of Expo - Science and Virtual Forum:

The FoCiCi contemplates two modalities of participation:

- Expo – Science: students from kindergarten to university level accompanied by guidance teachers, who present a project of dissemination, innovation and / or research in science or technology.
- Forum: only teachers or researchers who want to present a research project or an innovative didactic proposal, or a conference according to the field of knowledge in which they work.

Article 2: Regarding the categories of Expo – Science:

Projects may participate in three categories:

- Kindergarten and Primary level.
- Secondary Level (Technical, High School or equivalent)
- Superior (Tertiary and University)

Article 3: Regarding the areas involved

- Natural Sciences
- Social Sciences
- Exact Sciences
- Engineering and Technology

Article 4: Registration:

- Registration for the 2020 Virtual Forum of Science and Civilization can be made from 27 July 2020 to 2 October 2020, at www.vidayciencias.com.ar on the form corresponding to each modality. If there are any problems with the registration on the website, you can complete it via e-mail: forovidayciencias@gmail.com.
- Each national student participant is exempt from paying registration fees and accredits certification with pedagogical recognition and publication of their project in the event book "Disseminating Science and Technology in Times of Pandemic" with ISBN copyright and participates in the competition for the different awards by area and general, and the accreditations to international events for 2021.
- Each national teacher participant will pay a registration fee of \$1000 (one thousand Argentine pesos) which accredits certification with pedagogical recognition and publication of their project in the event's book "Disseminating Science and Technology in Times of Pandemic" with ISBN copyright

and will participate in the competition for the different awards by area and general, and the accreditations to international events for 2021.

- Each foreign participant (student or counsellor) accredited in affiliated fairs will solve their registration corresponding to U\$D 35 (thirty-five American dollars), which accredits certification with pedagogical recognition and publication of their project in the event's book "Spreading science and technology in times of pandemic" with ISBN copyright and participates in the competition of the different awards by area and general, as well as the accreditations to international events for 2021.
- Each foreign participant (student or counselor) who is a member of Milset will pay a registration fee of U\$D 25 (twenty-five U.S. dollars), which accredits certification with pedagogical recognition and publication of their project in the event's book "Spreading Science and Technology in Times of Pandemic" with ISBN copyright, and will participate in the competition for the different awards by area and general, as well as the accreditations to international events for 2021.
- Each foreign volunteer participant (student or counsellor, with previous accreditation by the Scientific Review Committee of the Vida y Ciencias Association) will solve their registration corresponding to U\$D 35 (thirty-five U.S. dollars), which accredits certification with pedagogical recognition and publication of their project in the event's book "Diffusing Science and Technology in Times of Pandemic" with ISBN copyright and participates in the competition for the different awards by area and general and the accreditations to international events for 2021.
- Each virtual assistant who requests the certification with pedagogical recognition of the event will solve his registration with \$500 (five hundred Argentine pesos) or U\$D 10 (ten American dollars).

Article 5: Presentation of research projects at the expo – science

WRITTEN PRESENTATION:

a) The project report:

Synthetic Format

A copy in PDF format, using A4 paper size; the left margin should be 3 cm and the right, top and bottom margins should be 2 cm. You have to use Arial or Calibri font and size 11 or Times New Roman font and size 12, as well as justified alignment. The extension is up to 10 pages and should not exceed 5000 words.

b) Field folder:

All presentations of research projects must be accompanied by their corresponding notebook, logbook, logbook or field folder. Given the circumstances, in this expo - virtual science, we request the presentation of a story, narrative or the internal history of the research, that is to say, from the time the idea arose until the scientific, narrative or extensive report is completed. It is suggested to narrate the steps developed during the research to historicize the research process. This should be written colloquially and has to include dates, obstacles, advances, setbacks and achievements.

This document is extremely important for the evaluation of the project since it reports and records all the evidence that gives the research reliability and validity. It is an item required by the evaluators. The document should not exceed 10 pages nor 5000 words.

AUDIOVISUAL PRESENTATION:

a) (a) Concerning audiovisual presentation

Each participant must prepare an audiovisual presentation to show their project to the evaluators and for its subsequent dissemination on the event's platforms. It is important to mention that registering in the FoCiCi Virtual 2020, implies from the participants the consent of publication, the cession of images and voice of all the people that appear in that publication.

Characteristics of the audiovisual presentation: It must have a maximum duration of ten minutes, and the participant must present himself in MP4 format or similar.

It is suggested that the exhibitors make a clear and concise presentation of their research or project including those aspects that are most relevant and significant and focusing on: where the idea came from, the relevance and originality of the proposal, how the research was developed, as well as the results they obtained. The jury will use this presentation in the evaluation of the oral presentation of the research.

Article 6. Referring to the presentation of research projects, innovative didactic proposals or conferences at the Virtual Forum.

Guidelines for the presentation of papers:

- Papers should be sent to Vida y Ciencias Association at the following e-mail address: forovidayciencias@gmail.com in Word format.
- The presentation has to follow this format:
- Data of all the authors of the work: Full name and surname, ID card, institution of reference, place of residence, telephone number, E-mail and Curriculum Vitae summarized in a maximum of 12 lines.
- Title.
- Abstract (up to 250 words).
- Body of work (up to 5000 words).
- Bibliography.
- Curriculum Vitae abbreviated in 15 lines and written in Time New Roman font, size 11.

The Scientific Review Committee of Vida y Ciencias Association reserves the right to suggest changes or corrections in the works, and it is up to the author to accept them or not.

Article 7: Awards:

- Each participant as an exhibitor in the two modalities, Expo - science and Forum, will receive a certificate of participation in FoCiCi.
- In the Expo - science modality, prizes will be awarded to those research projects that reach the first 3 (three) places per area and per category, and 1 (one) special recognition will be given to the 3 (three) best scored projects.
- The outstanding projects will be chosen by the Scientific Evaluation Commission (SAC) and will be accredited to participate in various national and international events with which FoCiCi has an agreement, provided that they exceed a score of 70 points.
- In the Forum modality, international mentions and accreditations will be given, according to the recommendations of the CCE.
- The awards, mentions and accreditations are unappealable and non-transferable.
